Dear Applicant:

This is in reference to the above application and the request for an additional extension of the construction permit period received on December 14, 2017. For the reasons stated below, the request for an additional extension will be denied.

Section 73.3598 of the Commission's Rules¹ allow extension of an original LPFM construction permit for an additional 18 months. The permit was extended on April 18, 2016. No subsequent or additional extensions are provided for. Tolling of the construction permit deadline can be requested under certain specific conditions that prevent construction due to causes not under control of the permittee. These causes include acts of God (such as floods, tornados, hurricanes, or earthquakes), administrative and judicial challenges to the permit's grant, or a pending request for international coordination. Tolling requests should be submitted 30 days before the permit's expiration.

Accordingly, in light of the above, the request for an additional extension of the construction permit period for BNPL-20131114BVT IS HEREBY DENIED. These actions are taken pursuant to 47 C.F.R. § 0.283.

Sincerely,

James D. Bradshaw
Deputy Chief
