License Application: BMML20171214ABX
Program Test Authority

Dear Counsel:

This letter is in reference to the above-captioned license application and your request for program test authority ("PTA") for station KMBZ(AM).

Authority is granted KMBZ(AM) to conduct program tests in accordance with its construction permit (BP-20140729ACZ) and Section 73.1620 of the Commission's rules on 980 kHz with a daytime nominal power of 9.0 kilowatts and nighttime nominal power of 5 kilowatts. Program tests are authorized with a daytime nominal power of 9.0 kilowatts (common point current of 7.25 amperes) and a nighttime antenna input power of 5.4 kilowatts (common point current of 10.19 amperes) and with antenna monitor parameters shown on Form 302-AM. It is noted that KMBZ(AM) shares the antenna system with AM station KCCV(AM), and therefore we will not grant the KMBZ(AM) license application until KCCV(AM) files its Form 302 application as specified in condition #3 of the KMBZ(AM) construction permit.

This authority expires on **April 12, 2018**.

Sincerely,

Jerome J. Manarchuck
