KGDD, Portland, OR
Facility Identification Number: 71752
Special Temporary Authority (STA)
BESTA- 20171228AAH

Dear Mr. Bustos:

This is in reference to the request filed on December 28, 2017. BMH requests an extension of the STA granted on July 13, 2017, to continue operating from an alternate site using a whip antenna to allow time to file the required FCC Form 301 application for a new permanent facility (due to loss of the licensed site).¹ In support of the request, BMH states that it plans to file the application (which may involve a city change).

Requests for extension of STA will be granted only where the licensee can show that one or more of the following criteria have been met:

- Restoration of licensed facilities is complete and testing is underway;
- Substantial progress has been made during the most recent STA period toward restoration of licensed operation; or
- No progress has been made during the most recent STA period for reasons clearly beyond the licensee's control, and the licensee has taken all possible steps to expeditiously resolve the problem.

Accordingly, the request for extension of the STA IS HEREBY GRANTED, and BMH may continue to operate with the following facilities:

Geographic coordinates	45°31' 09"N, 122° 36' 32" W(NAD 1927)
Frequency	1150 kHz
Hours of operation	Day and Night

¹ KGDD(AM) is licensed for ND operation on 1150 kHz 5 kW day and 0.01 kW night.

Operating power
Antenna type
Efficiency

0.01 kW maximum
Whip antenna (18 feet in length)
24.7 mV/m/kW/km

BMH must use whatever means are necessary to protect workers and the public from exposure to radio frequency radiation in excess of the Commission's exposure guidelines. See 47 CFR 1.1310.

This authority expires on **August 1, 2018**.

Sincerely,
