File No. BMPL-20180117ADD

Dear Applicant:

This is in reference to the above application and the proposed use of a directional antenna to comply with the US/Mexico FM Agreement. For the reasons stated below, the use of a directional antenna will be denied.

Section 73.816 of the Commission's Rules¹ allows LPFM stations the use of directional antennas for the purpose of justifying a waiver of the second adjacent channel spacing requirements of Section 73.807 or for Public safety licensees. Therefore the use of a directional antenna or such characteristics that are considered directional pertaining to any antenna for any other use will not be approved.

Accordingly, in light of the above, BMPL-20180117ADD, IS HEREBY DISMISSED. These actions are taken pursuant to 47 C.F.R. § 0.283.

Sincerely,

James D. Bradshaw
Deputy Chief
