Re: Multicultural Radio Broadcasting Licensee, LLC
(MRBL)
WJDM(AM), Elizabeth, NJ
Facility Identification Number: 54563
BESTA-20180206AAS

Dear Mr. Liu:

This is in reference to the request filed on February 6, 2018. MRBL requests a further extension of the STA granted on November 30, 2015, to continue to operating ND at the construction permit site to allow time to file the required FCC Form 302 application.¹ In support of the request, MRBL states that additional time is needed to file the application.

Requests for extension of STA will be granted only where the licensee can show that one or more of the following criteria have been met:

- Restoration of licensed facilities is complete and testing is underway;
- Substantial progress has been made during the most recent STA period toward restoration of licensed operation; or
- No progress has been made during the most recent STA period for reasons clearly beyond the licensee's control, and the licensee has taken all possible steps to expeditiously resolve the problem.

Accordingly, the request for extension of STA is GRANTED, and MRBL may continue to operate using a maximum of 0.25 kW daytime only and one of the existing WNWS/WPAT

¹ WJDM(AM) is licensed for ND operation on 1530 kHz with 1 kW day and 0.67 kW critical hours, and authorized by construction permit (BP-20151113AFY) to operate daytime-only using the four existing WNSW/WPAT towers and a new 10 kW pattern.

towers (ASRN #1241949) specified in the construction permit BP-20151113AFY. MRBL must further reduce power or cease operation if complaints of interference are received, and use whatever means are necessary to protect workers and the public from exposure to radio frequency radiation in excess of the Commission's exposure guidelines. *See* 47 CFR § 1.1310.

This authority expires on **August 26, 2018**.

Sincerely,

A handwritten signature in blue ink, consisting of a large, stylized 'J' followed by a series of loops and a final flourish.
