In re: NEW(FM), Leesburg, FL
BNPFT-20171204ABO
Facility ID No. 201734

Dear Applicant:

This letter refers to the above-captioned application for a new translator.

An engineering study of the application reveals that it is in violation of 47 C.F.R. § 74.1204(a) with respect to first-adjacent station WPYO(FM) (BLH-20040325AHN), Maitland, FL. Section 74.1204(a) states that an application for an FM translator station will not be accepted if the proposed operation would involve prohibited overlap of predicted field strength contours with any other authorized station. Specifically, the proposed interfering contour (54 dBμ) will cause prohibited overlap to the protected contour (60 dBμ) of WPYO. Accordingly, the application fails to demonstrate compliance with 74.1204(a) and will be dismissed.

In light of the above, the application BNPFT-20171204ABO filed by Unity Broadcasting, LLC, is unacceptable for filing pursuant to 47 C.F.R. § 73.3566(a) and IS HEREBY DISMISSED. This action is taken pursuant to 47 C.F.R. § 0.283.

Sincerely,

James D. Bradshaw
Deputy Chief
