Re: KUTZ-LP, Sacramento, CA
Facility ID No. 196604
Midtown Radio
File No. BPL-20180117ADJ

Dear Applicant:

The staff has under consideration the above-captioned modification application for a minor change to a licensed facility.

An engineering study has revealed that the proposed transmitter site specified in the application fails to meet the minimum spacing requirements of 47 C.F.R. § 73.807 in relation to co-channel license for KDLZ-LP, BLL-20171006AAA, in Sacramento, CA. The minimum required separation is 24 kilometers, whereas the separation proposed is 10.4 kilometers. The modification application for KDLZ-LP has been dismissed thereby not allowing this short spacing to be dissolved.

Accordingly, in light of the above, application BPL-20180117ADJ is unacceptable for filing and IS HEREBY DISMISSED. This action is taken pursuant to 47 C.F.R. § 0.283.

Sincerely,

James D. Bradshaw
Deputy Chief
Audio Division
