New York, NY 10023

Re: ABC Radio Los Angeles Assets, LLC (ABC)
KRDC(AM), Pasadena, CA
Facility Identification Number: 25076
Special Temporary Authority (STA)
BESTA-20180305AAP

Dear Mr. Zucker:

This is in reference to the request filed on March 5, 2018. ABC requests a final extension of the STA granted on March 9, 2017, to continue to operate with parameters at variance until after further action has been taken on BMML-20170711ACG to update all operating parameters.¹ In support of the request, we noted that the application remains pending before the Commission at this time.

Requests for extension of STA will be granted only where the licensee can show that one or more of the following criteria have been met:

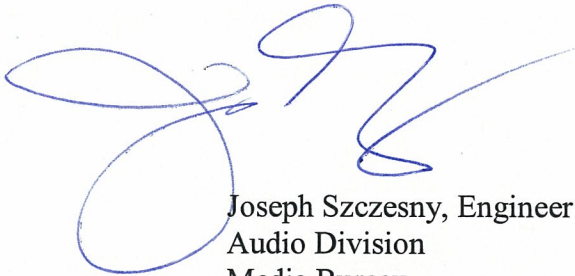

- Restoration of licensed facilities is complete and testing is underway;
- Substantial progress has been made during the most recent STA period toward restoration of licensed operation; or
- No progress has been made during the most recent STA period for reasons clearly beyond the licensee's control, and the licensee has taken all possible steps to expeditiously resolve the problem

Accordingly, the request for extension of the STA IS HEREBY GRANTED, and ABC may continue to operate with parameters at variance from licensed values and/or reduced power if needed based upon the information submitted in the license application. ABC must use whatever means are necessary to protect workers and the public from exposure to radio frequency radiation in excess of the Commission's exposure guidelines. *See* 47 CFR § 1.1310.

¹ KRDC(AM) is licensed for DA operation on 1110 kHz with 50 kW day and 20 kW night.

This authority expires on **June 6, 2018**.

Sincerely,

Joseph Szczesny, Engineer
Audio Division
Media Bureau
