Facility ID No. 135542
File No. BPL-20071227AAA

Dear Applicant:

This letter refers to the above-captioned application for a minor change to a licensed facility.

An engineering study has revealed that the proposed transmitter site specified in the application fails to meet the minimum spacing requirements of Section 73.807 of the Commission's Rules¹ in relation to third-adjacent Station W224BU, BLFT-20070523ABA, Lake City, FL. The required separation is 8 kilometers, whereas the separation proposed is 2.3 kilometers.

Accordingly, in light of the above, application BPL-20071227AAA is unacceptable for filing and IS HEREBY DISMISSED. This action is taken pursuant to Section 0.283 of the Commission's Rules.²

Sincerely,

James D. Bradshaw
