Re: Radio License Holding SRC LLC (RLH)  
KTCK(AM), Dallas, TX  
Facility Identification Number: 8773  
Special Temporary Authority (STA)  
BESTA-20180320AAZ

Dear Mr. Denning:

This is in reference to the request filed on March 20, 2018. RLH requests a further extension of the STA granted on November 27, 2013, to continue operating with parameters at variance to allow time to file the required FCC Form 302 application to update all operating parameters.<sup>1</sup> In support of the request, RLH states that the application will be filed after station KLIF(AM) has been diplexed onto the existing antenna system (per BP-20160707AAZ).

Requests for extension of STA will be granted only where the licensee can show that one or more of the following criteria have been met:

- Restoration of licensed facilities is complete and testing is underway;
- Substantial progress has been made during the most recent STA period toward restoration of licensed operation; or
- No progress has been made during the most recent STA period for reasons clearly beyond the licensee's control, and the licensee has taken all possible steps to expeditiously resolve the problem.

Accordingly, the request for extension of STA IS HEREBY GRANTED, and RLH may continue to operate with parameters at variance and/or reduced power while maintaining both patterns within licensed limits. RLH must use whatever means are necessary to protect workers and the public from exposure to radio frequency radiation in excess of the Commission's exposure guidelines. See 47 CFR § 1.1310.

---

<sup>1</sup> KTCK(AM) is licensed for DA operation on 1310 kHz with 25 kW daytime and 5 kW night.

This authority expires on **October 16, 2018.**

Sincerely,

A handwritten signature in blue ink, consisting of a large, stylized 'J' followed by a series of loops and a long horizontal stroke.
