Re: Multicultural Radio Broadcasting Licensee
LLC (MRBL)
WZRC(AM), New York, NY
Facility Identification Number: 27398
Special Temporary Authority (STA)
BESTA-20180327ACF

Dear Mr. Liu:

This is in reference to the request filed on March 27, 2018. MRBL requests an extension of the STA granted on August 18, 2016, to continue operating with parameters at variance pending further action on the FCC Form 302 applications for stations WZRC and WWRV.¹ In support of the request, we noted that the WZRC application (BMML-20180417AAZ) has been filed.

Requests for extension of STA will be granted only where the licensee can show that one or more of the following criteria have been met:

- Restoration of licensed facilities is complete and testing is underway;
- Substantial progress has been made during the most recent STA period toward restoration of licensed operation; or
- No progress has been made during the most recent STA period for reasons clearly beyond the licensee's control, and the licensee has taken all possible steps to expeditiously resolve the problem.

¹ WZRC(AM) is licensed for DA operation on 1480 kHz with 5 kW (day and night) using different patterns.

Accordingly, the request for extension of the STA IS HEREBY GRANTED, and MRBL may continue to operate with DA parameters at variance based upon the information provided in BMML-20180417AAZ. MRBL must use whatever means are necessary to protect workers and the public from exposure to radio frequency radiation in excess of the Commission's exposure guidelines. *See* 47 CFR § 1.1310.

This authority expires on **October 23, 2018**.

Sincerely,

Joseph Szczesny, Engineer
Audio Division
