Re: Flint Media Inc. (FMI)
WMGR(AM), Bainbridge, GA
Facility Identification Number: 52401
File No. BMP-20171204ABW

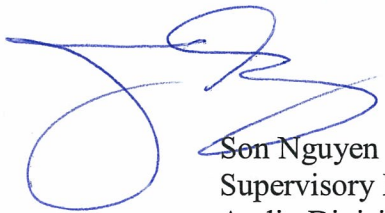

Dear Mr. Dowdy:

This letter refers to the above-captioned minor change application filed to modify the licensed WMGR facility by eliminating the licensed nighttime 0.5 kW directional antenna pattern, and correcting the daytime site coordinates.

A preliminary review of the proposed class must be amended from B to D on FCC Form 301 because the nighttime facility is being eliminated. The proposed NAD27 site coordinates are (30-54-23.0 NLAT, 84-33-1.0 WLONG) and when converted they do not yield the NAD83 site coordinates (30-54-24.0 NLAT, 84-33-1.0 WLONG) shown in the tower registration database for the existing tower (ASRN #1053374). As a result, the application must be amended to correct this error, or FMI must first contact the WTB staff via their web page <http://wireless.fcc.gov/antenna/> to correct the NAD83 coordinates, and then convert those coordinates to NAD27 before inputting onto the FCC Form 301 application and filing the curative amendment.

Accordingly, further action on the subject application will be withheld for a period of 30 days to allow time to amend. Failure to amend or respond with a request for additional time within this time period will result in the dismissal of the application pursuant to Section 73.3568 of the Commission's rules.

Sincerely,

Son Nguyen
Supervisory Engineer
