Subject: RE: KTKL(FM), Stigler, OK

Mr Doak,

I have examined the three radials that you brought to my attention and would appreciate it if you could change them accordingly:

5 degrees, change to .378

285 degrees, change to .829

295 degrees, change to .71

We will be utilizing the same ERI P300 6 bay antenna that is currently licensed for KTKL.

Thank you for taking the time to discuss these items today.

Thank you,
Jim Travis
