by Lawrence Turet on behalf of Lincoln Television, Inc.

MEMORANDUM OPINION AND ORDER adopted 7-27-78, released 8-11-78 FCC 78-528 95670: Therefore, in
light of the above discussion, IT IS ORDERED, That the informal objections filed by the
Committee on Children's Television-North, et al, against nine San Francisco area licensees
identified in footnote 1 and the informal objections ~~by~~ filed by the Committee on Children's
Television-South against seven Los Angeles licensees identified in footnote 1 ARE DENIED to the
extent they seek hearings on the specific license renewals of these particular stations and
GRANTED to the extent that they seek reinstatement of the Commission's Children's Inquiry and
incorporation of the arguments and data therein provided as part of that Inquiry. IT IS
FURTHER ORDERED, That the pleadings and filings of this proceeding are made a part of the
Inquiry in Docket 19142.

About the History Cards ...

History Cards were first used by the Department of Commerce to keep track of applications filed by, and changes to, the earliest AM broadcast radio stations in the early 1920s. The records were subsequently transferred to the Federal Radio Commission in 1927, and after that to the Federal Communications Commission when that agency was created in 1934. These cards gradually grew into a large card file.

TV History Cards were initiated in the early 1940s, with the authorization of the earliest TV stations. History Cards remained in use until the creation of the first computerized database in 1980 to track broadcast applications, the Broadcast Application Processing System (BAPS). However, the Commission did not transfer the data from the History Cards to the new system. Instead, it retained the History Cards in their original form for reference.

In 1999, the Commission moved to a new location (445 12th Street SW), and also at that time created the successor database to BAPS, the Consolidated DataBase System (CDBS). Prior to that move, the History Cards were transferred to microfiche by a contractor (only a few sets of microfiche exist), and the original paper cards were destroyed. The History Cards were stored on the microfiche as negative images, like those you see above.

History Cards contain very brief entries and notes about station facilities, applications, and ownership. They are not, and never were intended to be, a comprehensive record of a station's operations. Nevertheless, they can be useful to help determine, for example, when a station first went on the air and its call letters at that time. History Card comments were generally typed onto the cards, and thus some records will show more faintly or with more smudging than others, depending on the quality of typewriter and ribbon then used. Occasional handwritten comments, corrections, and strikeouts may also be found. Cards may be incomplete, missing, or occasionally out of sequence.

The History Cards are presented here as they were copied to microfiche, to preserve this record for public use, and with the hope that they will be of value to future researchers of television station history.
