RE: KXAL-LP, Facility Number 134419

Dear Sir,

After many years of operation, it has become obvious that our license to operate KXAL-LP has outlived its usefulness.

For the last year, we have been searching for a qualified applicant who would accept a donation of the station. Unfortunately, finding such an applicant located within a distance that would comply with the Commissions LPFM parameters has been fruitless. The only qualified possibilities are simply too far away from the station's current location. We have consulted an engineering firm as well as had a telephone conversation with a representative from your Audio Division. Short of spending a small fortune and perhaps years in the process, it does not appear that such a move is feasible. Therefore, we have made the reluctant decision to surrender the license for cancellation.

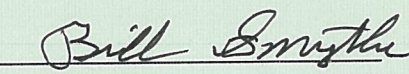

The license is enclosed with this mailing. KXAL-LP's last date of operation is April 30, 2018.

Thank you for your consideration,

Sincerely,

THE CHURCH AT LAKE CHEROKEE

X   
FR. Mike Maxwell

X   
Rev. Bill Smythe
