In re: W232CF, Fort Walton Beach, FL  
BPFT-20180411AAL  
Facility ID No. 145151

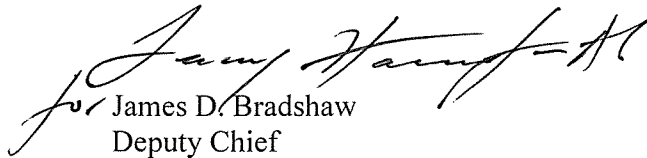

Dear Applicant:

This letter refers to the above-captioned minor change application for W232CF, Fort Walton Beach, Florida.<sup>1</sup>

An engineering study of the application reveals that it is in violation of 47 C.F.R. § 74.1204(a) with respect to first-adjacent channel station WMEZ (BLH-20071114ACD), Pensacola, FL. Section 74.1204(a) states that an application for an FM translator station will not be accepted if the proposed operation would involve prohibited overlap of predicted field strength contours with any other authorized station. Specifically, the proposed interfering contour (54 dBμ) will cause prohibited overlap to WMEZ's protected contour (60 dBμ). Accordingly, the application fails to demonstrate compliance with 74.1204(a) and will be dismissed.

In light of the above, the application BPFT-20180411AAL filed by Omni Broadcasting, LLC, is unacceptable for filing pursuant to 47 C.F.R. § 73.3566(a) and IS HEREBY DISMISSED. This action is taken pursuant to 47 C.F.R. § 0.283.

Sincerely,

  
James D. Bradshaw  
Deputy Chief  
Audio Division  
Media Bureau

cc: John C. Trent, Esq.
