Dear Mr. Davis:

This is in reference to the request filed on July 25, 2018. AMFM requests an extension of the STA granted on January 25, 2018, to continue operating with parameters at variance pending further action on BMML-20180703AAU.¹ In support of the request, we anticipate that further action will be taken on the application before the expiration date shown below.

Requests for extension of STA will be granted only where the licensee can show that one or more of the following criteria have been met:

- Restoration of licensed facilities is complete and testing is underway;
- Substantial progress has been made during the most recent STA period toward restoration of licensed operation; or
- No progress has been made during the most recent STA period for reasons clearly beyond the licensee's control, and the licensee has taken all possible steps to expeditiously resolve the problem.

Accordingly, the request for extension of the STA IS HEREBY GRANTED, and AMFM may continue to operate with parameters at variance (and reduced power if needed) based upon the information provided in BMML-20180703AAU. AMFM must reduce power or cease operation if complaints of interference are received, and use whatever means are necessary to

¹ KGME(AM) is licensed for operation on 910 kHz with 5 kW (ND day and DA night).
