Re: WACG-FM, Augusta, Georgia  
Facility Identification Number: 23922  
Georgia Public Telecommunications Commission  
Special Temporary Authorization

Dear Counsel:

This is in reference to the request filed February 25, 2008, on behalf of Georgia Public Telecommunications Commission ("GPT"). GPT requests modification of the special temporary authority ("STA") granted on December 21, 2007, to operate Station WACG-FM with emergency antenna facilities pursuant to Section 73.1680.<sup>1</sup> In support of the request, GPT states that the licensed transmission system developed an audio hum; that it was able to eliminate the problem by operating with the antenna formerly authorized by Construction Permit BPED-20051014AAE, but with reduced power. GPT now requests modification of the STA for operation with increased power, in order to provide improved service pending permanent relocation of the station.

Our review indicates that the proposed STA operation would comply with the Commission's technical rules and STA policies.

Accordingly, the request for modification of STA IS HEREBY GRANTED. Station WACG-FM may operate with the following facilities:

Geographic coordinates:	33° 24' 18" N, 81° 50' 15" W (NAD 1927)
Channel	214 (90.7 MHz)
Effective radiated power:	1 kilowatt (H only)
Antenna height:	
above ground:	380 meters
above mean sea level:	499 meters
Above average terrain:	421 meters

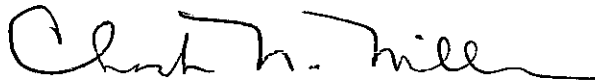

---

<sup>1</sup> WACG-FM is licensed for operation on Channel 214C2 (90.7 MHz) with effective radiated power of 25 kilowatts (H&V) and antenna height above average terrain of 122 meters.

GPT must use whatever means are necessary to protect workers and the public from exposure to radio frequency radiation in excess of the Commission's exposure guidelines. *See* 47 CFR § 1.1310.

This authority expires on **August 26, 2008**.

Sincerely,

A handwritten signature in black ink, appearing to read "Charles N. Miller". The signature is fluid and cursive, with a long horizontal stroke at the end.

Charles N. Miller, Engineer  
Audio Division
