Bruce C. Maduri, President Genesis Communications of Tampa Bay, Inc. PO Box 25434 Tampa, FL 33622

Re:

Genesis Communications of Tampa Bay, Inc.

(Genesis)

WHBO(AM), Pinellas Park, FL Facility Identification Number:41383 Special Temporary Authorization (STA)

BESTA-20170821AAS

Dear Mr. Maduri:

This is in reference to the request filed on August 21, 2017. Genesis requests a further extension of the STA granted on August 28, 2006, as modified to operate ND at the WWBA(AM) site pending the filing of the required FCC Form 302 application to cover the construction permit BP-20150820ABA. In support of the request, we noted that the application was not yet filed.

Requests for extension of STA will be granted only where the licensee can show that one or more of the following criteria have been met:

- Restoration of licensed facilities is complete and testing is underway;
- Substantial progress has been made during the most recent STA period toward restoration of licensed operation; or
- No progress has been made during the most recent STA period for reasons clearly beyond the licensee's control, and the licensee has taken all possible steps to expeditiously resolve the problem.

¹ WHBO(AM) is licensed for operation on 1040 kHz with 3.6 kW (ND) day and 0.42 kW (DA) night, and BP-20150820ABA authorizes an ND day and DA night facility using the existing WWBA transmitter site.

We noted that the previous STA expired on June 30, 2017, but this request was not filed until August 21, 2017. As a result, the authority granted herein will not cover the period between the expiration of the prior STA and the filing of the instant request, and is without prejudice as to whatever action the Commission may take with respect to operation during that time period.

Accordingly, the request for extension of STA IS HEREBY GRANTED, and Genesis may continue to operate with the following facilities (or per Section 73.1615):

Geographic coordinates

27° 54′ 30″ N, 82° 46′ 51″ W (NAD 1927)

Frequency

1040 KHz Unlimited

Hours of operation

3.5 kW day, 0.015 kW night

Operating power Antenna type

WWBA(AM)'s existing tower

Radiator height

95.1° (76.2 meters)

Overall height

77 meters 1040054

ASRN Antenna efficiency

cc:

309.17 mV/m/km/kW

Genesis must reduce power or cease operation if complaints of interference are received, and use whatever means are necessary to protect workers and the public from exposure to radio frequency radiation in excess of the Commission's exposure guidelines. *See* 47 CFR § 1.1310.

This authority expires on March 10, 2019.

Sincerely,

Joseph Szczesny, Engineer

Audio Division Media Bureau

Christopher D. Imlay, BFIT PC (via e-mail only)
