Re: Multicultural Radio Broadcasting Licensee, LLC
(MRBL)
WJDM(AM), Elizabeth, NJ
Facility Identification Number: 54563
BESTA-20180824AAX

Dear Mr. Liu:

This is in reference to the request filed on August 24, 2018. MRBL requests a further extension of the STA granted on November 30, 2015, to continue to operating ND at the WNSW/WPAT transmitter site pending the filing of the required license application (due to loss of the licensed site).¹ In support of the request, we noted that MRBL did not file the license application over the past six months.

Requests for extension of STA will be granted only where the licensee can show that one or more of the following criteria have been met:

- Restoration of licensed facilities is complete and testing is underway;
- Substantial progress has been made during the most recent STA period toward restoration of licensed operation; or
- No progress has been made during the most recent STA period for reasons clearly beyond the licensee's control, and the licensee has taken all possible steps to expeditiously resolve the problem.

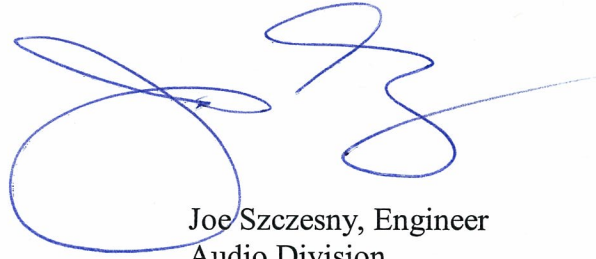

Accordingly, the request for extension of STA is GRANTED, and MRBL may continue

¹ WJDM(AM) is licensed for ND operation on 1530 kHz with 1 kW day and 0.67 kW critical hours, and authorized by BP-20151113AFY to operate 10 kW daytime-only using the four existing WNSW/WPAT towers.

to operate using a maximum of 0.25 kW daytime only and one of the existing WNWS/WPAT towers (ASRN #1241949) specified in the construction permit BP-20151113AFY. MRBL must use whatever means are necessary to protect workers and the public from exposure to radio frequency radiation in excess of the Commission's exposure guidelines. *See* 47 CFR § 1.1310. MRBL must file an acceptable FCC Form 302 application before the construction permit expires on the date shown below.

This authority expires on **November 30, 2018.**

Sincerely,

A handwritten signature in blue ink, consisting of a large loop on the left and a series of smaller loops and strokes on the right.

Joe Szczesny, Engineer
