Re: BDJ Radio Enterprises, LLC (BRE)
KXEN(AM), St. Louis, MO
Facility Identification Number: 54739
Special Temporary Authorization (STA)
BESTA-20180913ABB

Dear Mr. Kaufman:

This is in reference to the request filed on September 13, 2018. BRE requests a further extension of the STA granted on July 23, 2012, to continue operating with temporary nighttime facilities to allow time to file the required FCC Form 301 application to propose a new permanent facility (due to the sale of part of the existing transmitter site).¹ In support of the request, we noted that BRE did not yet file the application.

Requests for extension of STA will be granted only where the licensee can show that one or more of the following criteria have been met:

- Restoration of licensed facilities is complete and testing is underway;
- Substantial progress has been made during the most recent STA period toward restoration of licensed operation; or
- No progress has been made during the most recent STA period for reasons clearly beyond the licensee's control, and the licensee has taken all possible steps to expeditiously resolve the problem.

Accordingly, the request for extension of STA IS HEREBY GRANTED, and BRE may continue to operate using the licensed DA daytime site 50 kW facility, and at night with the following temporary site facilities:

Geographic coordinates: 38° 38' 09" N, 90° 11' 45" W (NAD 1927)

¹¹ KXEN(AM) is licensed for DA operation on 1010 kHz with 50 kW day and 0.5 kW night.

Frequency:	1010 kHz
Operating hours:	Nighttime
Operating power:	0.125 kW nighttime
Antenna:	74.2 m vertical wire supported on face of a self-supporting tower located at the KDNL(TV) studios
Radiator height:	90°
ASRN:	1003524

BRE must reduce nighttime power or cease operation if complaints of interference are received, and must use whatever means are necessary to protect workers and the public from exposure to radio frequency radiation in excess of the Commission's exposure guidelines. *See* 47 CFR § 1.1310. BRE must file the application before or after final action has been taken on the proposed rules mentioned in MB Docket 13-249.²

This authority expires on **April 17, 2019**.

Sincerely,

Joseph Szczesny, Engineer
Audio Division
Media Bureau
