Subject: KDNM BSTA-20181206AAO is DISMISSED 12/7/2018

Your 12/6/2018 request for Special Temporary Authority IS DENIED, and the STA request is DISMISSED. KDNM is licensed for operation on noncommercial educational channel 211, and there is no FM commercial allotment for KDNM on the requested channel, 270. A frequency change requires a granted construction permit application. KDNM may not commence any operation on Channel 270 (101.9 MHz), or from this transmitter site.

In the future, please allow several days for processing of STA requests. We cannot guarantee next day service.

Subject: KDNM, Reserve, NM - STA Request

Hey Rudy,

I just filed a request for an STA to return KDNM, Reserve, NM, (one of the Cochise consent decree stations) to the air before their license goes away entirely on 27 December - BSTA-20181206AAO.

My client will be traveling to NM this weekend to install and put the KZNM STA facilities on the air and to install the equipment for the KDNM STA facilities. If it were possible for you to grant the request tomorrow, it would allow them put it on the air while they are there.

Thanks!

Gray
