Re: Polnet Communications, Ltd. (Polnet)
WRKL(AM), New City, NY
Facility Identification Number: 50057
Special Temporary Authority (STA)
BESTA-20181211AAD

Dear Mr. Kotaba:

This is in reference to the request filed on December 11, 2018. Polnet requests an extension of the STA granted on March 13, 2017, to continue ND operations to allow time to file the required FCC Form 302 application due to the collapse of one tower.¹ In support of the request, we noted that Polnet did not yet install the replacement tower and file the application.

Requests for extension of STA will be granted only where the licensee can show that one or more of the following criteria have been met:

- Restoration of licensed facilities is complete and testing is underway;
- Substantial progress has been made during the most recent STA period toward restoration of licensed operation; or
- No progress has been made during the most recent STA period for reasons clearly beyond the licensee's control, and the licensee has taken all possible steps to expeditiously resolve the problem.

Accordingly, the request for extension of the STA IS HEREBY GRANTED, and Polnet may continue to operate ND using tower #4 of the nighttime array with a maximum of 0.25 kW day and 0.20 kW at night. Polnet must reduce power or cease operations if needed to resolve any

¹ WRKL(AM) is licensed DA for operation on 910 kHz with 1 kW day and 0.8 kW night, using different patterns.

interference complaints, and use whatever means are necessary to protect workers and the public from exposure to radio frequency radiation in excess of the Commission's exposure guidelines. See 47 CFR § 1.1310. Polnet must replace the collapsed tower with a duplicate and then file the FCC Form 302 application to update all operating parameters. Otherwise an FCC Form 301 application must be filed if other types of changes are desired.

This authority expires on **June 17, 2019**.

Sincerely,

Joseph Szczesny, Engineer
