Subject: Fort Smith AR K258CE Facility ID 157551

Greetings Dale:

K258CE Fort Smith AR, was operating at reduced power due to a kink in the transmit coax. When the coax was replaced, the Bext TFC2K transmit antenna was installed.

Program tests began on 1/9/2019 and K258CE is now operating at full power. A 350 license application was filed for the Bext Antenna and new TPO calculations

Sincerely,
Lois Mills
