Subject: Limited Program Test Authority granted to KOLJ-FM

Request for Program Test Authority For a Radio Broadcast Station

Audio Division, Media Bureau

Date: July 27, 2017
File Number: License Application BLED-20170712AAA / Program Test Authority request 20170712ACN
Call Sign: KOLJ-FM
Facility ID Number: 174404

The measured directional pattern fails to cover the community of license (Warroad, MN) as required by construction permit BMPED-20150604AAD, Condition 4. Thus, as matters stand, the constructed facility does not satisfy the terms and conditions of the underlying construction permit. The permittee has informally acknowledged this and requests "limited program test authority" to allow operation while it pursues a solution.

LIMITED PROGRAM TEST AUTHORITY is granted to permit operation of KOLJ-FM with the facilities specified in license application BLED-20170712AAA. This authority is conditioned upon the permittee filing, within the next 30 days, a corrective minor change modification application, or taking other such measures, as will resolve this deficiency. The permittee must provide evidence of progress toward a permanent solution to obtain extension of this authority.

This limited program test authority expires **September 11, 2017**.
