Re: Radio Plus, Inc.  
WFDL(AM), Waupun, Wisconsin  
Facility Identification Number: 42092  
File Number: BP-20180514AAK

Dear Applicant:

This is in reference to the above-captioned application to correct the coordinates of the location of the AM antenna of WFDL(AM).

A preliminary engineering study of the application reveals that the tower is specified as 62 meters in height and you assert that the tower does not need to be registered. However, any tower that is higher than 60.96 meters must be registered pursuant to Section 17.4(a) of the Commission's rules. We note that WFDL(AM)'s last license indicates that its tower has been registered and has an antenna structure registration number (ASRN) of 1201639. The registered antenna NAD83 tower coordinates is N Latitude 43°38'30" W Longitude 88°43'22", which are different from the coordinates in the application (NAD27 coordinates: N Latitude 43°38'34.8" W Longitude 88°43'25.2") when converted to NAD83 coordinates (N Latitude 43°38'34.8" W Longitude 88°43'25.6). Please provide an amendment showing that the coordinates in the application agree with the registered coordinates.

Further action on the subject application will be withheld for thirty (90) days from the date of this letter to provide an opportunity to file a curative amendment. The amendment must be submitted in the same manner as the original application. Failure to respond or file an amendment within this period will result in the dismissal of the application pursuant to Section 73.3568 of the rules.

Sincerely,

Son Nguyen,  
Supervisory Engineer  
Audio Division  
Media Bureau
