Re: J&V Communications, Inc. (JVC)  
WPRD(AM), Winter Park, Florida  
Facility Identification Number: 29341  
Special Temporary Authority (STA)  
BESTA-20190228AAF

Dear Ms. Torrado:

This is in reference to the request filed on February 28, 2019. JVC requests a second extension of the STA granted on January 30, 2018, to continue operating ND at night to allow time to complete equipment repairs.<sup>1</sup> In support of the request, JVC stated that an additional 90 days would be required to resolve all problems in order to resume license operations.

Requests for extension of STA will be granted only where the licensee can show that one or more of the following criteria have been met:

- Restoration of licensed facilities is complete and testing is underway;
- Substantial progress has been made during the most recent STA period toward restoration of licensed operation; or
- No progress has been made during the most recent STA period for reasons clearly beyond the licensee's control, and the licensee has taken all possible steps to expeditiously resolve the problem.

Accordingly, the request for extension of the STA IS HEREBY GRANTED, and JVC may continue to operate ND using the daytime tower with a maximum of 5 kW day and 0.25 kW at night. JVC must reduce power or cease operation if complaints of interference are received,

<sup>1</sup> WPRD(AM) is licensed for operation on 1440 kHz with 5 kW day (ND) and 1 kW night (DA).

and use whatever means are necessary to protect workers and the public from exposure to radio frequency radiation in excess of the Commission's exposure guidelines. *See* 47 CFR § 1.1310. JVC must submit an e-mail to my attention to certify the date the station resumed licensed operations per BZ-19940715AB with negligible changes to verify an FCC Form 302 application filing is not needed, or to state an FCC Form 301 application has been filed (if other permanent changes are desired).

This authority expires on **June 7, 2019**.

Sincerely,

Joseph Szczesny, Engineer
