Re: CC Licenses, LLC, As Debtor in Possession  
(CCL)  
WKJK(AM), Louisville, Kentucky  
Facility Identification Number: 55497  
Special Temporary Authority (STA)  
BESTA- 20190214AAI

Dear Mr. Langham:

This is in reference to the request filed on February 14, 2019. CCL requests an extension of the STA granted on February 8, 2018, to continue operating with parameters at variance to allow time to complete all remaining repairs.<sup>1</sup> In support of the request, CCL states that additional time will be needed.

Requests for extension of STA will be granted only where the licensee can show that one or more of the following criteria have been met:

- Restoration of licensed facilities is complete and testing is underway;
- Substantial progress has been made during the most recent STA period toward restoration of licensed operation; or
- No progress has been made during the most recent STA period for reasons clearly beyond the licensee's control, and the licensee has taken all possible steps to expeditiously resolve the problem.

Accordingly, the request for extension STA IS HEREBY GRANTED, and CCL may continue to operate with parameters at variance from licensed values and/or reduced power while maintaining monitor points within licensed limits. CCL must reduce power or cease operations if complaints of interference are received, and use whatever means are necessary to protect workers

---

<sup>1</sup> WKJK(AM) is licensed for DA operation on 1080 kHz with 10 kW day and 1 kW night, using different patterns.

and the public from exposure to radio frequency radiation in excess of the Commission's exposure guidelines. *See* 47 CFR § 1.1310. CCL must submit an e-mail to my attention to certify the date the station resumed licensed operations per BL-19850220AG with negligible changes (to ensure an FCC Form 302 filing is not required).

This authority expires on **September 10, 2019**.

Sincerely,

A handwritten signature in blue ink, consisting of a large loop followed by a series of smaller loops and a long horizontal stroke extending to the right.
