Re: KNYN (FM), Ft. Bridger, Wyoming  
Facility Identification Number: 87470  
M. Kent Frandsen  
Special Temporary Authorization

Dear Counsel:

This is in reference to the request filed October 26, 2007, on behalf of M. Kent Frandsen ("MKF"). MKF requests further extension of the special temporary authority ("STA") granted on December 7, 2005, to operate Station KNYN with emergency antenna facilities pursuant to Section 73.1680.<sup>1</sup> In support of the request, MKF states following the collapse of the station's tower in an ice storm, the owner has not yet reconstructed the tower.

Requests for extension of STA will be granted only where the licensee can show that one or more of the following criteria have been met:

- Restoration of licensed facilities is complete and testing is underway;
- Substantial progress has been made during the most recent STA period toward restoration of licensed operation; or
- No progress has been made during the most recent STA period for reasons clearly beyond the licensee's control, and the licensee has taken all possible steps to expeditiously resolve the problem.

Our review indicates that Application BPH-20070119AEV remains pending before the Commission. Thus, the licensee has made substantial progress toward restoration of licensed operation and extension of STA is warranted.

Accordingly, the request for extension of STA IS HEREBY GRANTED. Station KNYN may continue to operate with the following facilities:

Geographic coordinates: 41° 21' 10"N, 110° 54' 26" W (NAD 1927)  
Channel 256 (99.1 MHz)

---

<sup>1</sup> Station KNYN is licensed for operation on Channel 256C1 (99.1 MHz) with effective radiated power of 27.5 kilowatts (H&V), and antenna height of 489 meters above average terrain.

Effective radiated power: 0.625 kilowatt (H&V)  
Antenna height:  
    above ground: 5 meters  
    above mean sea level: 2629 meters  
    above average terrain: 456 meters

MKF must notify the Commission when licensed operation is restored. MKF must use whatever means are necessary to protect workers and the public from exposure to radio frequency radiation in excess of the Commission's exposure guidelines. *See* 47 CFR § 1.1310.

This authority expires on **October 29, 2008**.

Sincerely,

A handwritten signature in black ink, appearing to read "Charles N. Miller". The signature is fluid and cursive, with the first name "Charles" being more prominent.

Charles N. Miller, Engineer
