Re: Radio License Holding SRC LLC (RLH)
KTCK(AM), Dallas, TX
Facility Identification Number: 8773
Special Temporary Authority (STA)
BESTA- 20190507ABH

Dear Mr. Denning:

This is in reference to the request filed on May 7, 2019. RLH requests a final extension of the STA granted on November 27, 2013, to continue operating with parameters at variance pending further action on BMML-20190329ACF filed to update all operating parameters.¹ In support of the request, we anticipate that further action will be taken on the application before the expiration date shown below.

Requests for extension of STA will be granted only where the licensee can show that one or more of the following criteria have been met:

- Restoration of licensed facilities is complete and testing is underway;
- Substantial progress has been made during the most recent STA period toward restoration of licensed operation; or
- No progress has been made during the most recent STA period for reasons clearly beyond the licensee's control, and the licensee has taken all possible steps to expeditiously resolve the problem.

Accordingly, the request for extension of the STA IS HEREBY GRANTED, and RLH may continue to operate with parameters at variance and/or reduced power based upon the pending application. RLH must use whatever means are necessary to protect workers and the public from exposure to radio frequency radiation in excess of the Commission's exposure guidelines. See 47 CFR § 1.1310.

¹ KTCK(AM) is licensed for DA operation on 1310 kHz with 25 kW daytime and 5 kW night.

This authority expires on **August 29, 2019.**

Sincerely,

A handwritten signature in blue ink, consisting of a large, stylized 'J' followed by a series of loops and a long horizontal stroke extending to the right.

Joseph Szczesny, Engineer
