Edmond, WV 25837

Re: Shilo Communications, Inc. (SCI)  
WRRL(AM), Rainelle, WV  
Facility Identification Number: 54411  
Special Temporary Authority (STA)  
BESTA-20190605AAN

Dear Mr. Syner:

This is in reference to the request filed on June 5, 2019. SCI requests an extension of the STA granted on December 17, 2018, to continue operating from an alternate site to allow time to file the required FCC Form 301 minor change application.<sup>1</sup> In support of the request, we noted that SCI plans to file the application to propose a new permanent facility very soon.

Requests for extension of STA will be granted only where the licensee can show that one or more of the following criteria have been met:

- Restoration of licensed facilities is complete and testing is underway;
- Substantial progress has been made during the most recent STA period toward restoration of licensed operation; or
- No progress has been made during the most recent STA period for reasons clearly beyond the licensee's control, and the licensee has taken all possible steps to expeditiously resolve the problem.

Accordingly, the request for extension of the STA is hereby GRANTED, and SCI may continue to operate with the following facilities:

Geographic coordinates	37° 58' 09" N, 80° 46' 44" W (NAD 1927)
Frequency	1130 kHz
Hours of operation	Daytime only
Operating power	Not to exceed 0.1 kW (daytime)
Antenna type	ISO-400HP antenna

<sup>1</sup> WRRL(AM) is licensed for ND daytime only operation on 1130 kHz with 1 kW.

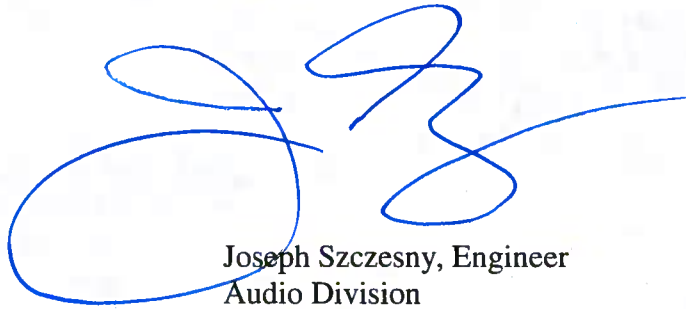

Antenna radiator height  
Antenna efficiency

10 electrical degrees  
30 mV/m/kW/km

SCI must reduce power or cease operations if complaints of interference are received, and use whatever means are necessary to protect workers and the public from exposure to radio frequency radiation in excess of the Commission's exposure guidelines. See 47 CFR §1.1310.

This authority expires on **January 3, 2020**.

Sincerely,

A handwritten signature in blue ink, consisting of a large loop followed by a series of smaller loops and a long horizontal stroke extending to the right.

Joseph Szczesny, Engineer  
Audio Division  
Media Bureau
