Re: Sagitarus Communications, LLC (SC)
WHTX(AM), Warren, OH
Facility Identification Number: 70531
Special Temporary Authority (STA)
BESTA-20190703AAB

Dear Mr. Cintron:

This is in reference to the request filed on July 3, 2019. SC requests a further extension of the STA granted on November 24, 2015, to continue ND operation pending further action on BP-20190702AAZ.¹ In support of the request, we note that additional time will be required to review and take action on the application.

Requests for extension of STA will be granted only where the licensee can show that one or more of the following criteria have been met:

- Restoration of licensed facilities is complete and testing is underway;
- Substantial progress has been made during the most recent STA period toward restoration of licensed operation; or
- No progress has been made during the most recent STA period for reasons clearly beyond the licensee's control, and the licensee has taken all possible steps to expeditiously resolve the problem.

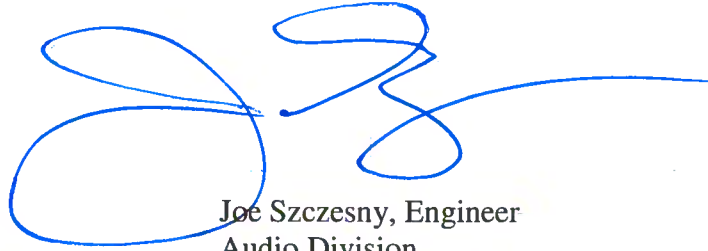

Accordingly, the request for extension of STA is hereby GRANTED, and SC may continue to operate ND using tower #2(NW) and a maximum of 0.125 kW (day) and 0.029 kW

¹ WHTX(AM) is licensed for DA operation on 1570 kHz with 0.5 kW day and 0.116 kW night, and BP-20190702AAZ proposes to change from DA to ND.

(night). SC must use whatever means are necessary to protect workers and the public from exposure to radio frequency radiation in excess of the Commission's exposure guidelines. *See* 47 CFR § 1.1310.

This authority expires on **January 24, 2020**.

Sincerely,

A handwritten signature in blue ink, consisting of several loops and a long horizontal stroke extending to the right.

Joe Szczesny, Engineer
