Petition for Reconsideration

Dear Applicants:

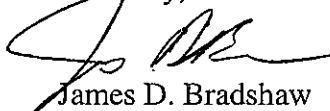

This is in reference to: (1) the above-captioned applications dismissed on October 9, 2007; (2) the amendments and joint Petition for Reconsideration filed on November 13, 2007; (3) the October 12, 2007 and December 10, 2007 Informal Objections filed by Arizona Community Media Foundation; and (4) all other related pleadings. For the reasons set forth below, the Petition for Reconsideration will be denied and the October 12, 2007 and December 10, 2007 Informal Objections and all other related pleadings will be dismissed as moot.

By letter dated October 9, 2007, the staff informed AEB that its application was in violation of 47 C.F.R. § 73.510(a). Section 73.510(a) states that noncommercial educational stations must comply with 47 C.F.R. § 73.316(b). Specifically, the proposed radiation pattern of the application, as originally filed, varied by more than 2 dB per 10 degrees. Consequently, the application was unacceptable for filing and therefore dismissed. Furthermore, the applications filed by EMF (BPED-20070803ACO and BMPED-20070803ACM) were filed contingently and subsequently dismissed.

On November 13, 2007, AEB and EMF submitted a petition for reconsideration requesting reinstatement nunc pro tunc of the three applications and AEB filed a minor amendment for KLKA(FM). The KLKA amendment proposed to modify the directional antenna pattern. However, the application is still in violation of 47 C.F.R. § 73.510(a). Specifically, the proposed radiation pattern, as amended, varies by as much as 5.19 dB per 10 degrees between the azimuths of 280° T and 290°T. It is necessary to note that these azimuths are in the direction of a station where a directional antenna is necessary to prevent any prohibited overlap.<sup>1</sup> The amendment, therefore, fails to eliminate the problem which resulted in the dismissal of the original application. Accordingly, AEB and EMF's petition for reconsideration will be denied.

In light of the above, the AEB and EMF November 13, 2007 Petition for Reconsideration IS HEREBY DENIED. Furthermore, the October 12, 2007 and December 10, 2007 Informal Objections and all other related pleadings ARE HEREBY DISMISSED AS MOOT. These actions are taken pursuant to 47 CFR Section 0.283.

Sincerely,

James D. Bradshaw  
Deputy Chief  
Audio Division  
Media Bureau
