Dear Licensee:

Your August 13, 2019 request for Special Temporary Authority (STA) seeks approval to operate with temporary facilities while WSSI implements its construction permit BPH-20071004ABF.

However, it is not clear what technical parameters WSSI is asking to operate with. The information provided in the STA request appears to be inconsistent with that filed in previous, now expired STA filings. Consequently, the current STA request is DISMISSED as incomplete.

You may file a new STA request with the engineering data provided for the temporary facilities. In response to Item 7, select "Other antenna system" and include the requested data. We can then properly consider your request.

Sincerely,

Dale Bickel
Senior Engineer
