File No. BPL-20190805AAH

Dear Applicant:

The staff has under consideration the above-captioned modification application for a minor change to a licensed facility.

An engineering study has revealed that the proposed transmitter site specified in the application fails to meet the minimum spacing requirements of 47 C.F.R. § 73.807 in relation to first-adjacent channel licenses for KJCS, BLH-20020228AAD, in Nacogdoches, TX and KHJK, BLED-20130415ACC, in La Porte, TX. The minimum required separation is 80 kilometers and 120 kilometers respectively, whereas the separation proposed is 79 kilometers and 99 kilometers respectively. The application fails to address these defects.

Accordingly, in light of the above, application BPL-20190805AAH is unacceptable for filing and IS **HEREBY DISMISSED**. This action is taken pursuant to 47 C.F.R. § 0.283.

Sincerely,

James D. Bradshaw
