Re: Bustos Media Holdings, LLC (BMH)
KGDD, Portland, OR
Facility Identification Number: 71752
Special Temporary Authority (STA)
BESTA-20190826AAB

Dear Mr. Bustos:

This is in reference to the request filed on August 26, 2019. BMH requests a further extension of the STA granted on July 13, 2017, to continue operating from an alternate site to allow time to file the required FCC Form 302 application (due to loss of the licensed site).¹ In support of the request, we noted that a modification of the construction permit BP-20190213ABJ will be required if the existing KBPS tower is relocated by means of a related construction permit.

Requests for extension of STA will be granted only where the licensee can show that one or more of the following criteria have been met:

- Restoration of licensed facilities is complete and testing is underway;
- Substantial progress has been made during the most recent STA period toward restoration of licensed operation; or
- No progress has been made during the most recent STA period for reasons clearly beyond the licensee's control, and the licensee has taken all possible steps to expeditiously resolve the problem.

Accordingly, the request for extension of the STA IS HEREBY GRANTED, and BMH may continue to operate with the following facilities:

Geographic coordinates	45°31' 09"N, 122° 36' 32" W(NAD 1927)
Frequency	1150 kHz

¹ KGDD(AM) is licensed for ND operation on 1150 kHz 5 kW day and 0.01 kW night, and BP-20190213ABJ authorizes ND operation using 0.25 kW day and 0.012 kW night using the existing tower of station KBPS (ID #4782).

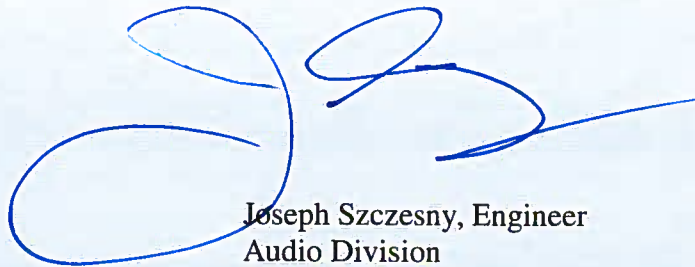

Hours of operation
Operating power
Antenna type
Efficiency

Day and Night
0.01 kW maximum
Whip antenna (18 feet in length)
24.7 mV/m/kW/km

BMH must use whatever means are necessary to protect workers and the public from exposure to radio frequency radiation in excess of the Commission's exposure guidelines. See 47 CFR §1.1310.

This authority expires on **March 15, 2020**.

Sincerely,

Joseph Szczesny, Engineer
