Dear Ms. Dortch:

This letter responds on behalf of Radio One Licenses, LLC, the licensee of KROI (FM), Seabrook, Texas, to the November 13, 2017 letter from Susan N. Crawford, Senior Engineer, Audio Division, Media Bureau, regarding its application proposing a modification of KROI(FM) licensed facilities (FCC File No. BPH-20171019ABB). The letter noted that the required FCC antenna structure registration had not yet been accomplished, and requested that ASR registration be effectuated and the application amended within 90 days.

The applicant has applied to the Federal Aviation Administration for a Determination of No Hazard for the proposed tower. The FAA has twice responded in Aeronautical Study Numbers 2017-ASW-16074-OE and 2017-ASW-19294-OE that the proposal represents a presumed hazard. The applicant is coordinating with the FAA to mitigate its concerns to achieve a Determination of No Hazard. Upon the receipt of a Determination of No Hazard, the applicant will obtain the FCC ASR and amend its application.

Accordingly, a time period of an additional 60 days past February 13, 2018 is respectfully requested to amend the KROI (FM) application to provide the FCC antenna structure registration number.

Should any questions arise concerning this matter, please contact the undersigned.

Sincerely,

**RADIO ONE LICENSES, LLC**
