Re: Tyler Media, LLC (TM)  
KOKC (AM), Oklahoma City, OK  
Facility Identification Number: 73981  
Special Temporary Authority (STA)  
BESTA-20190809AAH

Dear Mr. Tyler:

This is in reference to the request filed on August 9, 2019. TM requests a further extension of the STA granted on January 17, 2012, as modified, to operate ND using one reconstructed tower pending filing of the required FCC Form 301 application (due to destruction of the original three tower array).<sup>1</sup> In support of the request, TM requests additional time to file the application.

Requests for extension of STA will be granted only where the licensee can show that one or more of the following criteria have been met:

- Restoration of licensed facilities is complete and testing is underway;
- Substantial progress has been made during the most recent STA period toward restoration of licensed operation; or
- No progress has been made during the most recent STA period for reasons clearly beyond the licensee's control, and the licensee has taken all possible steps to expeditiously resolve the problem.

Accordingly, the request for extension of STA IS HEREBY GRANTED, and TM may continue to operate with the following facilities:

---

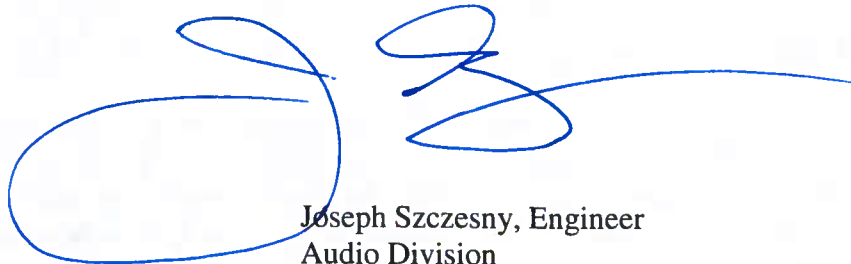

<sup>1</sup> KOKC is licensed for 50 kW operation on 1520 kHz with a daytime ND antenna, and a nighttime DA antenna.

|                        |   |
|------------------------|---|
| Geographic coordinates | 35° 20' 01" N, 97° 30' 18" W (NAD 1927) |
| Frequency              | 1520 KHz                                |
| Hours of operation     | Unlimited                               |
| Operating power        | 10 kW (Unlimited)                       |
| Antenna type           | tower constructed in 2015 for this STA  |
| Overall tower ht.      | 59 m                                    |
| Radiator Ht.           | 57.9 m                                  |
| Antenna efficiency     | 316 mV/m/km/KW                          |

TM must reduce power or cease operation if complaints of interference are received, and use whatever means are necessary to protect workers and the public from exposure to radio frequency radiation in excess of the Commission's exposure guidelines. *See* 47 CFR 1.1310. TM must file the application before or immediately after final action on MB Docket 13-249<sup>2</sup> has been taken, or rebuild the licensed facility per BZ-20021113AA.

This authority expires on **March 18, 2020**.

Sincerely,

Joseph Szczesny, Engineer  
Audio Division  
Media Bureau
