**Re: Compliance Report
KNKL (formerly KUAO), Ogden, UT (FIN 71394)
(Order and Consent Decree NAL/Acct. No. MB-201741410007)**

Dear Mr. Shuldiner:

Please find this amendment to the audit report for KNKL previously filed on September 17, 2019 it sets forth a few issues regarding CAP issues and slow log reviews.

Please let me know if you have any questions regarding the attached.

Respectfully submitted,

Mary O'Connor

KNKL – Ogden, UT

2019

Missing logs:

There were no missing logs during the review period.

Trends:

We are not seeing any trends in log issues. Any EAS issues seem to be more one-offs.

CAP Issues:

There were three (3) problems with CAP messages this year which appear to be an issue with the CAP provider's server. We have put monitoring on every stage of the CAP message delivery to be able to know and address any issues. Nonetheless, for the most part CAP has worked correctly.

Slow Log Review:

Out of the 57 weeks of logs reviewed, 8 log reviews took longer than 7 days:

- 3 of the 8 were while the Chief Operator was not working (vacation, day off, etc)

Action:

- The Chief Operator has been reminded of their responsibility to ensure log review within is complete within 7 days, and to use a designee if needed. Further, the Chief Operator's supervisor has been asked to put a weekly reminder on their calendar, as well as looking into other automated reminders.
