In re: W246BN, Pensacola, FL
BPFT-20190912AAG
Facility ID No. 146143

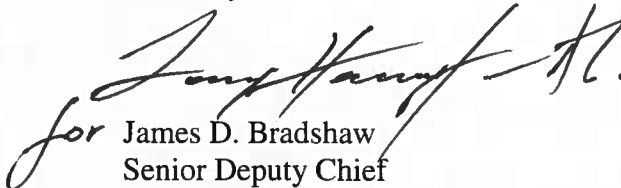

Dear Applicant:

This refers to the above-captioned application for W246BN, Pensacola, Florida.

An engineering study of the application reveals that it is in violation of 47 C.F.R. § 74.1235 (b)(1) since the application proposes a maximum effective radiated power (ERP) of 250 watts. Section 74.1235(b)(1) states that the maximum allowable effective radiated power with an antenna height above average terrain (HAAT) between 97 meters and 115 meters is 19 watts. Our study reveals that the azimuth at 210° has a HAAT of 115 meters and an ERP of 215 watts. The application failed to discuss this violation. Therefore, we will dismiss the application.

In light of the above, application BPFT-20190912AAG is unacceptable for filing pursuant to 47 C.F.R. § 73.3566(a) and IS HEREBY DISMISSED. This action is taken pursuant to 47 C.F.R. § 0.283.

Sincerely,

for James D. Bradshaw
Senior Deputy Chief
