Facility ID No. 141819 Received-FCC

OCT 21 2019

Bureau / Office

To: **Chief, Audio Division, Media Bureau**

SUPPLEMENT TO RENEWED INTERFERENCE COMPLAINT

1. Stewards of Sound, Inc. (“Stewards”) hereby supplements its Renewed Interference Complaint against WRPX, Inc. (“WRPX”), based on interference caused by WRPX’s FM Translator Station W279DD, Hudson, WI, to reception by regular listeners of primary station WWIB, Facility ID 63428, Hallie, WI. Stewards is the licensee of WWIB.¹ This Supplement responds to the Media Bureau’s letter of August 22, 2019,² requesting that Stewards update its Renewed Interference Complaint filed October 31, 2018, and Supplement filed on April 22, 2019, to take into account the new rules adopted in *Amendment of Part 74 of the Commission’s Rules Regarding FM Translator Interference*, 34 FCC Rcd 3457 (2019) (“*Translator Interference Order*”).³

2. Stewards first filed an interference complaint with respect to W279DD on August 24, 2017. After a cycle of pleadings, the Media Bureau directed the translator to cease operation.

¹ The translator operates co-channel to WWIB, so interference cannot be cured by using better receivers or filters.

² Ref. 1800B3-KV.

³ By email of October 21, 2019, the Media Bureau granted Stewards’ unopposed request for an extension of time to October 21, 2019, to respond to its August 22 letter.

Letter to James A. Koerner, Esq., ref. 1800B3-KV, dated June 11, 2018. WRPX subsequently constructed modified facilities, including a directional antenna, with the main lobe oriented away from WWIB.⁴ Because listeners continued to complain about interference, Stewards filed its Renewed Interference Complaint and Supplement.

3. This proceeding has been in progress for a long time. The listener complaints previously submitted by Stewards are now over one year old. The *Translator Interference Order* requires complaints to be less than one year old. Therefore, Stewards had to obtain new listener complaints to meet the Commission's new requirements, and it did so.

4. Attached as Exhibit 1 are 47 complaints written and signed by regular listeners to WWIB. Also attached as Exhibit 2 is an Engineering Statement that includes a map showing the locations of those listeners in relation to the WWIB predicted 45 dBu signal contour, which while not requested by the Media Bureau's letter, presents a clearer depiction of the contour and listener locations than previously submitted.

5. The Media Bureau's letter requested 10 things, each discussed in turn:

- a. The WWIB protected contour and population located therein. The population in WWIB's market is not large; but this pleading is supported by 47 listener complaints, which exceeds the 25-complaint minimum for a market of any size.
- b. Minimum number of complaints: The attached 47 listener complaints meets the minimum for any size market.
- c. Complaints signed and dated by listeners within one year: All 47 qualify.

⁴ See CDBS File No. BLFT-20180801ABO, license to cover BPFT-20180627AAB.

- d. Listeners' full name, address, and telephone number: Included on each of the 47 complaints.
- e. Description of listening locations where interference has been experienced: Included on each of the 47 complaints.
- f. Statement that listening occurs at least twice a month: Included on each of the 47 complaints.
- g. Statement of no affiliation or relationship with station: Included on each of the 47 complaints.
- h. Statement that the station is operating within its licensed parameters. The Declaration of Patrick Wahl, Chief Engineer for WWIB, attached as Exhibit 3, so states.
- i. Statement that the complaining station has used commercially reasonable efforts to inform the relevant translator licensee of the claimed interference and attempted private resolution. *See Paragraph 5, infra.*
- j. Undesired/desired ratio at each listener location: Included in the attached Engineering Statement for 44 of the 47 complaints.⁵

5. With respect to attempted private resolution of the complaint, WRPX, the translator licensee, is clearly aware of the complaints, as there have been two complete rounds of pleadings (complaint, supplement, response, reply) over a period of more than two years, and WRPX received an Order from the Commission directing it to shut down the translator. The attached Declaration of Patrick Wahl states that he contacted WRPX's technical consultant prior to the filing of Stewards' first interference complaint but was unable to resolve the interference problem

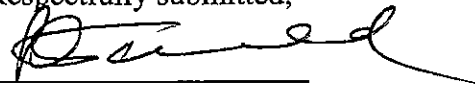

⁵ Three listener complaints arrived too late to be included in the Engineering Statement.

privately. Finally, the filing of an application to modify the translator's antenna pattern, BPFT-20180627AAB, is evidence of WRPX's attempt, albeit unsuccessful, to resolve the interference problem.

6. In light of the foregoing, Stewards submits that its complaint meets all requirements of the *Translator Interference Order*, and the directionalization of the translator's antenna has not resolved all listener complaints.⁶ Accordingly, WRPX must be directed again to cease operation, to change translator channel (the preferred solution from Stewards' point of view), to reduce power overall, or at a minimum to reduce further the reach of the translator's signal in the direction of WWIB.

I am a long time listener of WWIB 103.7 FM

I do a route truck delivery for my work

& I enjoy hearing "Gods" great words or good music I can understand. One day

(last week) I got back in my work truck &

thought what the ~~fuck~~
(heck) is this on the radio

I think it was ZZ top? I know they

(ZZ top) did not start singing Christian music!

That not the only time I have noticed this as well. More times than I can count

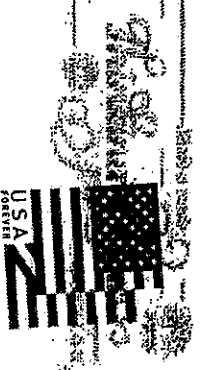

Picking up a different WDCY radio signal.

Thank you
for your time
to fix this.

EXHIBIT 2

Engineering Statement

Exhibit 2 Page 1 Stewards of Sound, Inc. Interference Packet Hallie, WI

WWIB has been receiving interference from W279DD on the western side of their protected contour. The FCC has stated in R&O 18-119 that primary stations should be free of translator interference inside of their 45 dBμ contour.

Exhibit 2

Figure 1 is an aerial map showing the WWIB 45 dBμ on the western side of their coverage area. **Figure 2** is an aerial map showing the WWIB Desired 45 dBμ-49.5 dBμ in .5 increments with the W279DD Undesired 25 dBμ-29.5 dBμ in .5 increments. Starting at the limit of 45 dBμ the opposing 25 dBμ was calculated using the Commission's standard contour prediction methodology. This represents -20 dBμ U/D Ratio for co-channel interference. Working inward to the point that co-channel interference no longer exist (49.5/29.5).

Figure 3 shows the area at which the U/D Ratio exceeds -20 dBμ for co-channel interference.

Figure 4 shows the area of interference in relation to WWIB's 45 dBμ contour.

Figure 5 & 6 have pinpointed complaints received from listeners describing interference in the area.

The following is a partial list of the listener complaints received by WWIB which are marked on Exhibit 2 Figures 5 & 6.

Figure 5 Ratio

	W279DD (U)	WWIB (D)	U/D
Jeff Aebly, Point 1, Hwy 63 N of I-94 into Baldwin	31.0	46.8	= -15.8
Jeff Aebly, Point 3, on I-94 at Hwy 128 to Baldwin	33.6	46.7	= -13.1
Linda Nelson, N6852 490th Street, Beldenville, WI 54003	32.5	45.1	= -12.6
Susan Monicken, 222 County Road BB, Baldwin, WI 54002	32.3	47.8	= -15.5
Jerry Holman, 710 Hillcrest Street, Baldwin, WI 54002	30.3	47.0	= -16.7

DECLARATION OF PATRICK WAHL

Patrick Wahl hereby declares as follows:

1. I am Chief Engineer for Stewards of Sound, Inc. and the designated Chief Operator for WOGO(AM) and WWIB(FM), Hallie, Wisconsin. My responsibilities including supervising all technical aspects of the operation of WOGO and WWIB. I inspect and maintain the stations' transmitters on a regular basis and keep the records of required of the Chief Operator.

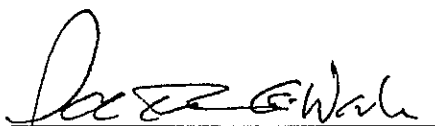

2. During the period October 1, 2018, through the date of this Declaration, WWIB has at all times, apart from brief maintenance periods, transmitted from its full authorized antenna height at an effective radiated power within the 90%-105% limits specified in Section 73.1560(a) of the FCC's Rules and Regulations.

3. I have personally corresponded with all of the WWIB listeners whose complaints are included with the Supplement to Renewed Interference Complaint to which this Declaration is attached. I believe that they are all regular listeners to WWIB and have no reason to believe that they have inaccurately stated any of the circumstances of their listening.

4. Prior to the filing of Stewards' first interference complaint against WRPX on August 24, 2017, I became aware of interference complaints and contacted WRPX's technical consultant, Mark Mueller, to request remediation. WRPX declined to take remedial steps at that time.

I declare under penalty of perjury that the foregoing is true of my personal knowledge.

Executed on October 18, 2019.

Patrick Wahl

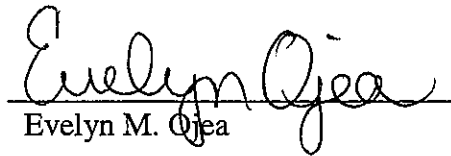

CERTIFICATE OF SERVICE

I, Evelyn M. Ojea, do hereby certify that I have, this 21st day of October, 2019, caused to be sent by first class United States mail, postage prepaid, a copy of the foregoing "Renewed Interference Complaint" to the following:

James A. Koerner, Esq.
7020 Richard Drive
Bethesda, MD 20817
Counsel for WRPX, Inc.

A copy will also be sent by e-mail to:

Kim Varner, Esq. (kim.varner@fcc.gov)
