FM Translator Station **W279DD**)
Hudson, WI)

Received-FCC

NOV 13 2019

To: **Chief, Audio Division, Media Bureau**

Bureau / Office

RESPONSE TO FCC QUESTIONS ABOUT
SUPPLEMENT TO RENEWED INTERFERENCE COMPLAINT

1. Stewards of Sound, Inc. (“Stewards”) hereby further supplements its pending Renewed Interference Complaint against WRPX, Inc. (“WRPX”). The complaint is based on interference caused by WRPX’s FM Translator Station W279DD, Hudson, WI, to reception by regular listeners of primary station WWIB, Facility ID 63428, Hallie, WI. Stewards is the licensee of WWIB. This Supplement responds to the Media Bureau’s email of November 7, 2019, asking for clarification of how listener complaint forms submitted on October 21, 2019, were completed.

2. Attached hereto is a Declaration by Patrick Wahl, Chief Engineer for Stewards, addressing the Bureau’s questions:

a. State whether the “WWIB Interference Report” (Report) was completed, in whole or in part, by an individual other than the referenced listener.

b. If a Report was completed, in whole or in part, by an individual other than the listener, state:

- i. The person or persons (apart from the listener);
- ii. The specific information/section(s) that said person completed on the Report;
- iii. Whether this information was completed before or after the referenced listener executed the Report.

3. Mr. Wahl’s Declaration explains that no one other than the listener and himself was involved in preparing the forms. Each complaint originated with a telephone call or email from

the listener to WWIB. Mr. Wahl personally talked by telephone to 46 out of the 47 listeners and corresponded by email with the 47th listener. Mr. Wahl made notes about what each listener said. He then completed part of a form in his own handwriting with information he had been given by the listener and sent the form to the listener. The listener added any information that he or she wished, signed the form, and sent the form back to WWIB by postal mail in an envelope provided by WWIB.

4. Mr. Wahl's Declaration includes copies of the listener complaints, showing who filled in each item (other than name, address, and telephone number) by marking either "Listener" or "Wahl" to the left of each handwritten entry. Mr. Wahl did not add or alter anything on any form after it had been signed and returned by the listener.

5. According to Stewards' engineering consultant, the population within the WWIB 60 dB μ contour is 263,819 persons. Therefore, 7 complaints are required to comply with the Commission's new translator interference complaint rules. Far more than 7 out of the 47 complaints submitted by Stewards include a significant amount of substantive information written in the listener's own handwriting.

Respectfully submitted,

Peter Tannenwald
Michelle A. McClure

Counsel for Stewards of Sound, Inc.

November 13, 2019

DECLARATION OF PATRICK WAHL

Patrick Wahl hereby declares as follows:

1. I am Chief Engineer for Stewards of Sound, Inc. ("Stewards") and the designated Chief Operator for WOGO(AM) and WWIB(FM), Hallie, Wisconsin. My responsibilities including supervising all technical aspects of the operation of WOGO and WWIB. I inspect and maintain the stations' transmitters on a regular basis and keep the records of required of the Chief Operator.

2. I personally assisted in preparing the 47 listener complaint forms submitted to the FCC on October 21, 2019, in a "Supplement to Renewed Interference Complaint" ("Supplement"). In each of the 47 situations, a listener initiated contact with WWIB to complain about interference by a telephone call or email, in most cases in connection with the October 21, 2019, submission but in two cases first in connection an earlier complaint filed by Stewards on August 24, 2017, regarding the same FM translator. I responded by calling each listener on the telephone. I spoke personally with each of the 47 listeners except for David Zwart, with whom I corresponded only by email.

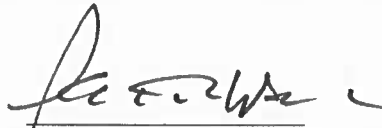

3. I asked each listener for the types of information required by the FCC to sustain an interference complaint. I personally wrote what the listener reported to me on one of the forms that was submitted with the Supplement. I then sent the form to the listener by postal mail, with a stamped addressed return envelope, asking the listener to add any relevant information and to sign the form and return it to me. All of the information that I wrote on the forms was obtained by me personally in conversations or emails with listeners; none was passed through a third party on either the listener's side or on WWIB's side.

4. Attached are copies of the 47 listener complaints, with entries (apart from name, address, and telephone number) marked in the left hand margin as having been written by the "Listener" or by me ("Wahl"). All information put on the forms by me prior to submission of the Supplement was written by hand, none by computer or any other electronic or mechanical writing device.

5. All of the 47 forms returned to me that were signed by listeners were submitted with the Supplement. I did not add or change any information on any of the forms after receiving them back in the mail from the listeners.

I declare under penalty of perjury that the foregoing is true of my personal knowledge.

Executed on November 12, 2019.

Patrick Wahl

WWIB INTERFERENCE REPORT

I am a regular listener to WWIB, but I am unable to receive a clear signal because of interference.

Name: Daniel Acker Phone: 715-644-5927

Home address: N 2265 Curtis Rd
Stanley WI 54768

Email (optional) _____

Frequency of interference: Please check one.

I can't listen to WWIB on 103.7 anywhere anymore. I hear WDGY instead when I tune to 103.7.

I can listen to WWIB sometimes, but at some places where I want to listen, I hear WDGY instead.

Frequency of listening: I listen to WWIB on 103.7 at least two times a month.

Listener

You may describe how often you listen: Every day

Listening locations: I have trouble receiving WWIB at the following places where I want to listen:

Fixed location street addresses (home/work): _____

Listener

I am a long time listener of WWIB 103.7 FM

I do a route truck delivery for my work

& I enjoy hearing "Gods" great words or
good music I can understand. One day

(last week) I got back in my work truck &

thought what the ~~heck~~
(heck) is this on the radio

I think it was ZZ top? I know they

(ZZ top) did not start singing Christian music!

That not the only time I have noticed
this as well. More times than I can count

Picking up a different W D G Y radio in signal.

Thank you
for your time
to fix this.
