Re: XL Media (CA) Inc. (XLM)
KGSV(AM), Oildale, CA
Facility Identification Number: 54760
Special Temporary Authority (STA)
BESTA-20191113AAB

Dear Mr. Batth:

This is in reference to the request filed on November 13, 2019. XLM requests a further extension of the STA granted on September 21, 2017, to continue ND operation to allow time to complete repairs, including replacing one damaged tower.¹ In support of the request, we noted XLM plans to complete repairs, and will need to file an FCC Form 302 application when done (to update all operating parameters).

Requests for extension of STA will be granted only where the licensee can show that one or more of the following criteria have been met:

- Restoration of licensed facilities is complete and testing is underway;
- Substantial progress has been made during the most recent STA period toward restoration of licensed operation; or
- No progress has been made during the most recent STA period for reasons clearly beyond the licensee's control, and the licensee has taken all possible steps to expeditiously resolve the problem.

Accordingly, the request for extension of the STA IS HEREBY GRANTED, and XLM may continue to operate ND with a maximum of 2 kW day and 1.5 kW at night. XLM must reduce power or cease operations if complaints of interference are received, and use whatever means are necessary

¹KGSV(AM) is licensed for DA operation on 660 kHz with 8 kW day and 6 kW night, using different patterns.

to protect workers and the public from exposure to radio frequency radiation in excess of the Commission's exposure guidelines. *See* 47 CFR §1.1310.

This authority expires on **June 3, 2020**.

Sincerely,

A handwritten signature in blue ink, consisting of a large loop on the left and a series of smaller loops and a long horizontal stroke on the right.
