Re: Iglesia Nueva Vida of High Point, Inc. (INV)
WRJR(AM), Claremont, VA
Facility Identification Number: 68741
Special Temporary Authority (STA)
BESTA-20200103AAG

Dear Mr. Fernandez:

This is in reference to the request filed on January 3, 2020. INV requests an extension of the STA granted on June 14, 2019, to continue operating ND with reduced power to allow time to complete fire damage repairs.¹ In support of the request, INV stated that additional time will be needed to complete the repairs.

Requests for extension of STA will be granted only where the licensee can show that one or more of the following criteria have been met:

- Restoration of licensed facilities is complete and testing is underway;
- Substantial progress has been made during the most recent STA period toward restoration of licensed operation; or
- No progress has been made during the most recent STA period for reasons clearly beyond the licensee's control, and the licensee has taken all possible steps to expeditiously resolve the problem.

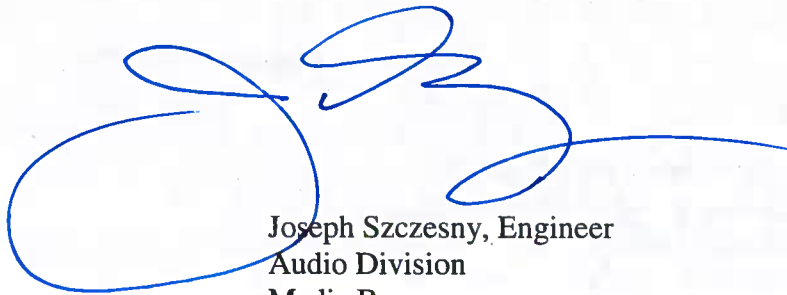

Accordingly, the request for extension of the STA is **HEREBY GRANTED**, and INV may continue to operate ND with a maximum of 2.5 kW (daytime) and 0.0075 kW (nighttime). INV must reduce power or cease operation if complaints of interference are received, and use whatever means are necessary to protect workers and the public from exposure to radio frequency radiation in excess

¹ WRJR(AM) is licensed for DA operation on 670 kHz with 20 kW (day) and 0.003 kW (night), using the same pattern.

of the Commission's exposure guidelines. *See* 47 CFR §1.1310. INV must submit an e-mail to my attention to certify the date the station resumed licensed operations per BL-20040526ATG with negligible changes (to ensure an FCC Form 302 application is not needed to update the operating parameters).

This authority expires on **July 9, 2020**.

Sincerely,

A handwritten signature in blue ink, consisting of a large loop on the left and a series of smaller loops and a horizontal line extending to the right.
