Re: Sagittarius Communications, LLC (SC)
WHTX(AM), Warren, OH
Facility Identification Number: 70531
Special Temporary Authority (STA)
BESTA-20200122AAD

Dear Mr. Cintron:

This is in reference to the request filed on January 22, 2020. SC requests a final extension of the STA granted on November 24, 2015, to continue ND operation to allow time to file the required FCC Form 302 application.¹ In support of the request, we note that SC plans to file the application to cover the construction permit soon.

Requests for extension of STA will be granted only where the licensee can show that one or more of the following criteria have been met:

- Restoration of licensed facilities is complete and testing is underway;
- Substantial progress has been made during the most recent STA period toward restoration of licensed operation; or
- No progress has been made during the most recent STA period for reasons clearly beyond the licensee's control, and the licensee has taken all possible steps to expeditiously resolve the problem.

Accordingly, the request for extension of STA is hereby GRANTED, and SC may continue to operate ND using a maximum of 0.75 kW (day) and 0.17 kW (night) as authorized

¹ WHTX(AM) is licensed for DA operation on 1570 kHz with 0.5 kW day and 0.116 kW night, and BP-20190702AAZ authorizes a change from DA to ND using the existing tower.

by the construction permit. SC must use whatever means are necessary to protect workers and the public from exposure to radio frequency radiation in excess of the Commission's exposure guidelines. *See* 47 CFR §1.1310.

This authority expires on **June 4, 2020**.

Sincerely,

A handwritten signature in blue ink, consisting of a large loop on the left and a series of smaller loops and a horizontal line extending to the right.

Joe Szczesny, Engineer
Audio Division
