Re: Sagitarus Communications, LLC (SC)  
WYCL(AM), Niles, OH  
Facility Identification Number: 73308  
Special Temporary Authority (STA)  
BESTA- 20200117AAM

Dear Mr. Cintron:

This is in reference to the request filed on January 17, 2020. SC requests a further extension of the STA originally granted on February 13, 2013, and last modified on July 13, 2018, to continue ND operation to allow time to file an FCC Form 301 application to modify the licensed facility.<sup>1</sup> In support of the request, SC states that additional time is needed to file the application.

Requests for extension of STA will be granted only where the licensee can show that one or more of the following criteria have been met:

- Restoration of licensed facilities is complete and testing is underway;
- Substantial progress has been made during the most recent STA period toward restoration of licensed operation; or
- No progress has been made during the most recent STA period for reasons clearly beyond the licensee's control, and the licensee has taken all possible steps to expeditiously resolve the problem.

Accordingly, the request for extension of STA is hereby GRANTED, and SC may continue to operate ND daytime only using the center tower with a maximum of 0.125 kW. SC

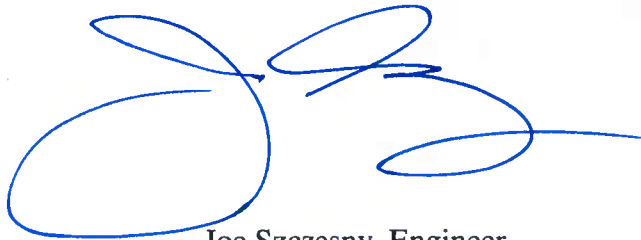

---

<sup>1</sup> WYCL(AM) is licensed for DA daytime only operation on 1540 kHz using 0.5 kW.

must reduce power or cease operation if complaints of interference are received, and use whatever means are necessary to protect workers and the public from exposure to radio frequency radiation in excess of the Commission's exposure guidelines. *See* 47 CFR §1.1310. SC must submit an e-mail to my attention to note if SC decides to initiate repairs first to restore licensed operations (before filing the 301 application).

This authority expires on **August 4, 2020**.

Sincerely,

A handwritten signature in blue ink, consisting of a large, stylized 'J' followed by a series of loops and a horizontal line extending to the right.

Joe Szczesny, Engineer
