Re: Indiana University of Pennsylvania
WIUP-FM, Indiana, Pennsylvania
Facility Identification Number: 28604
Special Temporary Authority

Dear Mr. Barber:

This is in reference to the request filed March 27, 2008, on behalf of Indiana University of Pennsylvania ("IUP"). IUP requests special temporary authority ("STA") to operate Station WIUP-FM with facilities proposed in Application BPH-20080327AFH.¹

Our review indicates that Construction Permit BPH-20080327AFH was granted on May 30, 2008, and that the permit does not incorporate any special operating condition which precludes immediate commencement of Program Test operation with the full facilities authorized. Thus, STA is no longer necessary.

Accordingly, the request for STA IS HEREBY DISMISSED.

Sincerely,

Charles N. Miller, Engineer
Audio Division
Media Bureau

cc: Indiana University of Pennsylvania

¹ WIUP-FM is licensed for operation on Channel 211A (90.1 MHz) with effective radiated power of 1.6 kW (H only) and antenna height above average terrain ("HAAT") of 27 meters. Construction Permit BPH-20080327AFH corrects the geographic coordinates and antenna elevation data, and authorizes operation with 1.5 kW (H&V).
