Re: Cumulus Licensing LLC (CLL)
KIKR(AM), Beaumont, TX
Facility Identification Number: 52406
Special Temporary Authority (STA)
BESTA-20200214AAN

Dear Mr. Denning:

This is in reference to the request filed on February 14, 2020. CLL requests a further extension of the STA granted on January 23, 2017, to continue operating with reduced power due to problems with the tower and ground system.¹ In support of the request, CLL states that additional time will be needed to resume licensed operations (or file an FCC Form 301 application to make permanent changes).

Requests for extension of STA will be granted only where the licensee can show that one or more of the following criteria have been met:

- Restoration of licensed facilities is complete and testing is underway;
- Substantial progress has been made during the most recent STA period toward restoration of licensed operation; or
- No progress has been made during the most recent STA period for reasons clearly beyond the licensee's control, and the licensee has taken all possible steps to expeditiously resolve the problem.

Accordingly, the request for extension of the STA IS HEREBY GRANTED, and CCL may continue to operate with reduced power. CCL must use whatever means are necessary to protect

¹ KIKR(AM) is licensed for ND operation on 1450 kHz with 1 kW (day and night).

workers and the public from exposure to radio frequency radiation in excess of the Commission's exposure guidelines. See 47 CFR §1.1310. CCL must submit an e-mail to my attention to note the date the station resumed licensed operations with negligible changes, or to note the date an FCC Form 301 application was filed.

This authority expires on **August 23, 2020**.

Sincerely,

Joseph B. Szczesny
Engineer
