In re: W261AX, Pittsburgh, PA
BPFT-20180308ABB
Facility ID # 150026

Dear Applicant:

This refers to the above-captioned application for W261AX, Pittsburgh, Pennsylvania.

In this application, Radio Power Inc. proposes an auxiliary station for W261AX.

There is no provision in our rules to accommodate the filing of an auxiliary antenna for an FM Translator station. See 47 C.F.R. Section 73.1675. Furthermore, Section 73.1675(b) specifically states that an application for a new auxiliary station must be filed on FCC Form 301 or Form 340. These forms are designated for full service FM stations and do not include the FM translator service.

Please note, if a situation arises that prompts the need for a temporary backup antenna, the Licensee may propose such operation in a request for special temporary authority.

In light of the above, the application BPFT-20180308ABB filed by Radio Power Inc. is unacceptable for filing pursuant to 47 C.F.R. § 73.3566(a) and IS HEREBY DISMISSED. This action is taken pursuant to 47 C.F.R. § 0.283.

Sincerely,

James D. Bradshaw
Senior Deputy Chief
