Re: Alexander Broadcasting, Inc. (ABI)

WRCR(AM), Spring Valley, NY Facility Identification Number: 64556 Special Temporary Authority (STA)

BESTA-20200318AAM

Dear Mr. Medakovich:

This is in reference to the request filed on March 18, 2020. ABI requests a further extension of the STA granted on August 16, 2017, as last modified on March 14, 2019, to continue operating from an alternate site to allow time to file the required FCC Form 301 application (due to loss of the licensed site in 2017). In support of the request, we note that ABI plans to file an application to propose a new permanent facility at the STA transmitter site.

Requests for extension of STA will be granted only where the licensee can show that one or more of the following criteria have been met:

- Restoration of licensed facilities is complete and testing is underway;
- Substantial progress has been made during the most recent STA period toward restoration of licensed operation; or
- No progress has been made during the most recent STA period for reasons clearly beyond the licensee's control, and the licensee has taken all possible steps to expeditiously resolve the problem.

Accordingly, the request for extension of the STA is hereby GRANTED, and ABI may continue to operate with the following facilities:

¹ WRCR(AM) is licensed for ND operation on the expanded band frequency of 1700 kHz with 10 kW day and 1 kW night.

Geographic coordinates 41° 11′ 22″ N, 74° 00′ 55″ W (NAD 1927)

Frequency 1700 kHz Hours of operation day and night

Operating power 2.5 kW (day), 0.25 kW (night) Antenna type 175 foot long-wire antenna

Electrical height of radiator 108.9°

ABI must reduce power or cease operation if complaints of interference are received, and use whatever means are necessary to protect workers and the public from exposure to radio frequency radiation in excess of the Commission's exposure guidelines. See 47 CFR §1.1310. ABI must submit an e-mail to my attention to note the date the FCC Form 301 application was filed.

This authority expires on October 14, 2020.

Sincerely

Joseph Szczesny, Engineer

Audio Division Media Bureau
